

Dear pupils, dear parents,

Everything is different to normal at the moment. Schools are closed although the school holidays have not started yet. It is not possible to attend events, meet up with friends or go to clubs. Everyone is studying at home. The ways in which you can get in touch with teachers, or ask questions if you don't understand something, are unusual and sometimes even difficult.

In situations like this, being able to talk to someone and to share your worries and concerns in confidence can be helpful. The following contacts continue to be available to you, our pupils, as well as your parents:
